Soft Skills

Energetic, team player, excellent communication skills

Projects

Presidential Race <https://alpha1game.herokuapp.com> Github: <https://github.com/dwilliams5807/Project-3>

Presidential Race is a small video game created in **Unity**, programmed using **C#**, implemented and launched inside a **ReactJS** web application. As a team member, I contributed the contents of the game.

UI Folly <https://josephbizra.github.io/UI-Folly/> Github: <https://github.com/JosephBizra/UI-Folly>

UI Folly is a mini game created with **react js** in which the player must click from a grid of cards on the screen. Every time he/she clicks on a card, the cards will shuffle. The player must be careful not to click the same card twice, or else they will lose. Click each 16 cards once to win.

Gem Game <https://josephbizra.github.io/gem-game/> Github: <https://github.com/JosephBizra/gem-game>

Gem Game is a game created in **JavaScript** in which four gems have a randomly generated numerical value. To win the game, the player must click each gem a certain number of times to count up exactly to a certain number. If the count exceeds that number, the game resets and the player must try again.

Bamazon Github: <https://github.com/JosephBizra/Bamazon>

This is a backend application made in **node.js** used in the terminal. It is an online retail app where Users can view and purchase items in the inventory, and the manager can view, restock, and remove items from said inventory.

Experience

Dental Care of Austin/ Front Desk Associate

January - October 2019, Austin, TX
